The image shows a screenshot of a Windows Notepad window. The menu bar at the top includes File, Edit, Format, View, and Help. The main content area contains the following HTML code:

```
<title>  
Start -----><html>  
Topic name of -----> <head>  
the web page -----> <title>.....</title>  
-----> </head>  
Content -----> <body>  
-----> { .....  
-----> .....  
-----> .....  
-----> </body>  
end -----> </html>
```

Create a Simple Web Page

- ✓ A simple text editing software could be used to enter html codes to create web pages.
Eg: notepad

Thank you
